<h1> FACEBOOK </h1>

<h4>The social networking service that has settled its roots online is known as Facebook. The headquarters is settled in Menlo Park, California. On February 4th, 2004 the website was launched. Mark Zuckerberg joined with his college roommates and co-students from Harvard University to launch what is now one of the largest sites for social media today.</h4>

<img src="google logo.png" height="50"/>

<h1> GOOGLE </h1>

<h4>Students will be using Google Docs with the other members of their groups, to collaborate within the classroom on their informative paragraph, allowing more students to type at once and make the project more efficient.</h4>

<img src="yt logo.png" height="50"/>

<h1> YOUTUBE </h1>

<h4>YouTube video essays are long-form (relative to many other internet videos) critical videos that make arguments about media and culture. They're usually meticulously narrated and edited, juxtaposing video footage, images, audio, and text to make an argument much like a writer would do in a traditional essay.</h4>

<img src="ig.png" height="50"/>

<h1> INSTAGRAM </h1>

<h4>Instagram allows users to edit and upload photos and short videos through a mobile app. Users can add a caption to each of their posts and use hashtags and location-based geotags to index these posts and make them searchable by other users within the app.</h4>
